

## Euronav honoured during the very-first ESG Shipping Awards

Shipping undergoes a foundational transformation regarding the need to decarbonize and digitalize. To this end, shipping stakeholders should embrace the best ESG practices to secure the success of that transformation.

The ESG Shipping Awards recognizes the Environmental, Social and Governance practices within Greek maritime shipping industry. It aims at encouraging the maritime industry to embed sustainability as part of their culture. The first-ever ESG Shipping Awards 2023 took place on May 30th, 2023 in Athens, Greece. The event was organized under the auspices of the Greek Ministry of Maritime Affairs and Insular Policy as well as the Hellenic Chamber.

ESG leaders have been awarded for their exemplary practices in 13 award categories including ESG Leader, Environment, Climate, Social, People, Technology, Governance, etc. The judging committee consisted of esteemed and recognized academics, professionals, and government officials at a global level.

Euronav was the winner in the Silver Environment Award demonstrating our industry-leading practices regarding sustainable financing associated to environmental management and reporting, air emissions, energy efficiency, pollution prevention, biodiversity, climate strategy, waste, and water-related management. The Award was received on behalf of the Euronav team by Capt. Michail Malliaros, our Hellas Ship Management General Manager, Capt. Pantelis Patsoulis, HSQE Manager and Konstantinos Papoutsis, ESG Sustainability Manager.

Capt. Michail Malliaros, Euronav Ship Management Hellas – General Manager: “The shipping industry is putting great efforts toward a sustainable and greener future, respecting the environment and making all the required goods available to support society’s demands and well-being. Euronav is committed from Top to bottom to leading the developments in our sector by implementing healthy processes and aligning every stakeholder within the company.”

Merchant shipping supports economy and societal life but comes with a responsibility. That Silver Environmental Award is another recognition of the purposeful role that Euronav plays within the global maritime shipping, building and living upon commitments to minimize our impact on environment and society.
