QUESTIONS IN RELATION TO UPCOMING SPECIAL GENERAL MEETING

ANTWERP, Belgium, November 17, 2023 – Euronav takes the opportunity to notify investors that it has centralized certain documentation in relation to the transactions announced by Euronav on 9 October 2023, including the Framework Agreement, the Share Purchase Agreement, the Settlement Agreement and the advice of the Committee of independent members of Euronav's Supervisory Board regarding these transactions, on a dedicated page of its website:

<https://www.euronav.com/en/investors/legal-information/sgm-2023/2023/>

While these documents were already made publicly available or extensively described in the SEC filings in relation to Euronav as well as in Euronav's press release of 9 October 2023, available on different sections of its website, Euronav has now centralized these documents on an easily accessible dedicated page in response to questions received from shareholders in view of the upcoming special general meeting.

"intends", "estimate", "forecast", "project", "plan", "potential", "may", "should", "expect", "pending" and similar expressions identify forward-looking statements.

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the failure of counterparties to fully perform their contracts with us, the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, changes in demand for tanker vessel capacity, changes in our operating expenses, including bunker prices, dry-docking and insurance costs, the market for our vessels, availability of financing and refinancing, charter counterparty performance, ability to obtain financing and comply with covenants in such financing arrangements, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, vessels breakdowns and instances of off-hires and other factors. Please see our filings with the United States Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
